

NON-CONVEYABLE

What does it mean?

NON-CONVEYABLE

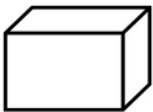

A shipment that due to its nature, size, shape or packaging, can not be handled by our sorting belt. These shipments must be processed manually. For a non-conveyable shipment a surcharge will be charged..

What does non-conveyable include?

A package is non-conveyable if...

- It concerns rolls and tubes.
- It has protruding parts or doesn't have flat bottom, or the center of gravity of the package is above the center.
- Due to their nature, the goods may be damaged by automatic sorting. Or can cause damage to the automatic sorting system.
- It is packed in bubble wrap.
- It is not properly packaged.
